

# Single Page Social Story

## Racial Equality

WITH VISUALS

**Social Story for...** **Racial Equality**

 All humans are made in unique and different ways.  
Humans look different than one another.  
Humans talk differently than one another.  
Humans all have different interests and ideas.

It is okay to be different, because that is what makes our world beautiful and special.  
But some people do not like that others are different from them.

 Some people are mean or aggressive toward others who are different than them.  
This is called racism and it is not okay.

 Racism exists when people do not have an open mind about people who are different than them.  
Racism exists when people do not try to talk or get to know those who are different than them.  
Getting to know more about other people from different cultures and places is fun and interesting.  
When we learn more about people who are different than us, our minds become more open and less afraid.

 When we talk to and become friends with people who are different than us,  
we help bring the world together in peace.  
It is important to know that all humans are different and that this is very cool!

I promise to always have an open mind and heart and be kind to others, even if they are different than me.  
I promise to respect all humans because we are all special and different.  
All humans should have equal rights and treatment because we are all unique.

 Uniqueness is beautiful!  
Our world would be a very boring place if we were all exactly the same!
